The Complete Platform Lift Solution

EVO 500H

Hydraulic Platform lift

The EVO 500H platform lift is a new generation vertical platform lift for disabled wheelchair access and for those with impaired mobility.

Manufactured in the UK, this cost effective platform lift brings together a modern flexible approach to platform lift design and construction. The extruded aluminium structure is in harmony with today's latest architectural designs, offering an array of configurations, finishes and options to suit commercial or residential buildings.

The modular design has a high degree of flexibility with three lift platform sizes offered as standard for internal and external platform lift applications.

Specification

EVO 500H Hydraulic Platform lift

- Platform rated load 400 kg
- Platform sizes 1400mm x 1100mm, 1400mm x 900mm, 1260mm x 900mm
- Structural shaft size See data sheet
- Travel speed 0.08 m/s
- Travel distance 200mm to 6000mm
- No. of stops available 4
- Power supply 1 Phase 230v 50Hz 20A Fused at 15A
- Rated power 1kW
- Pit depth 60mm
- Minimum headroom See data sheet
- Drive system Direct Hydraulic
- Door orientation Same side, Through & 90 Degrees
- Shaft walls Panelled to all 4 sides

Benefits

- Multiple stops up to 4 levels with travelling height from 200mm to 6000mm
- Landing door configuration available to three sides
- Choice of three platform sizes as standard
- Various colours and finishes available
- Free standing structure requiring no separate lift shaft or machine room
- Quick and easy to install
- Compact shaft size reducing the amount of space required on site
- Complies with the Machinery Directive 2006/42/EC and applicable parts of EN81-41.
- Low maintenance and running costs
